ISLAND HOPPING 4 - World Famous - Phi Phi Island.

Maya Bay

The Island is probably most famous for the Leonardo Di Caprio movie "The Beach" which was set in the stunning Maya Bay which is located on the uninhabited Phi Phi Leh which is the 2nd biggest of the Islands.

Maya Bay's beach, closed last year (2018) to allow coral restoration and beach recovery, could remain closed to visitors for many years. Maya Bay is located in the Phi Phi Islands between Krabi and Phuket. The famous Koh Phi Phi Ley beach needs time for its ecology to fully recover years of tourist abuse, this according to the Phi Phi National park chief Vorapot Lomlim as reported in Khaosod English. "Maya Bay must continue to be closed until nature has fully recovered. We expect it will take four to five years."

Loh Sama Bay

Loh Sama Bay is home to many unique attractions. Popular for snorkeling and diving, the Bay is located on the eastern side of Phi Phi Island and features a small islet in the center and a secluded beach behind a small canyon on the northern part. You'll be able to enjoy a photo opportunity at Loh Samah. There will be plenty of photos to show family and friends when back home!

Viking Cave & Monkey Beach

There's more sightseeing to be enjoyed on this tour. We'll glide past Viking Cave, reputed to have been a spot for pirates, and Monkey Beach where you might be able to spot some swimming monkeys! Whilst not a common trait amongst monkeys, this rocky island is home to several monkeys and they can swim. Get your cameras ready for some stunning photos of these smart creatures.

Snorkel & Relax on White Sandy Beaches.

Enjoy the stillness and silence of the sea whilst you snorkel through a vista of stunning underwater scenery with colorful coral reefs and schools of fish. Our tour leaves you with ample time to enjoy the beauty of the sea at a relaxed pace.

Bamboo Island

Bamboo Island is the most northeasterly island in Phi Phi. It's a tropical hotspot, yet never too crowded, perfect for a quick getaway from the hustle and bustle of other, more popular spots. This heart-shaped island gives plenty in terms of views. It's surrounded by a strip of white sand, with lush vegetation, including Bamboo trees in its middle. Snorkeling here is great; the island is blessed with a notable coral reef rich with fish species.
